MULTIPLE MEDICATION AGREEMENT

Health Support Planning

A multiple medication agreement is used to document multiple medications to be administered to a single child or young person.

The multiple medication agreement only needs to include medications to be administered in the education or care service, not all medications currently prescribed for the child or young person.

This information is confidential and will be available only to relevant staff and emergency medical personnel.

The legal guardian or adult student can complete the medication agreement authorising education and care staff to administer medication as instructed. All sections of the 'Authorisation' section must be checked to confirm authorisation to administer in an education or care service by the legal guardian or adult student.

A treating health professional may assist the legal guardian or adult student to complete this form.

A registered health professional (ie medical consultant, specialist nurse, GP, Dentist) **must** complete the 'Agreement' section if any of the listed medications are a Controlled Drug (S8) (including morphine, dexamphetamine and codeine), oxygen or insulin, or where pain relievers (paracetamol or ibuprofen) are required to be administered regularly, or for more than 72 continuous hours. If midazolam is prescribed this must be documented on an emergency medication management plan HSP153.

*Medication Agreements that are modified, overwritten or illegible will **NOT** be accepted.*

LEGAL GUARDIAN OR ADULT STUDENT TO COMPLETE:

Education or care service:			
Education or care service email: (if known)			
Name of child or young person:			
Date of birth:		Date of next review:	
Allergies:			

AUTHORISATION AND RELEASE	
☐	The medication documented above is required to be administered during attendance at the education or care service.
☐	The medication documented above is NOT a Controlled Drug (S8), oxygen, insulin or pain relief that requires administration regularly or for more than 72 continuous hours (if it is yes, 'Agreement' section must be completed by a health professional).
☐	Where the medication is a prescription medication; the medication has been prescribed for a current health condition.
☐	I confirm this medication has been administered to my child previously (a first dose cannot be administered in education or care).
☐	My child is well enough for school (no active fever, no diarrhea or vomiting, able to eat and drink as per normal, enough energy to participate throughout the day) and if there is a change in my child's health condition I will be called to collect them.
☐	I understand the medication provided must have a pharmacy label that matches the information in the Medication Agreement or the medication will not be administered.
☐	I approve the release of this information to supervising staff and emergency personnel (if required).
☐	I authorise the medication as instructed above to be administered in the education or care setting.
☐	I certify the above statements are true and correct.
